Manage Your Energy - Not Your Time!

Doing more and more with the same amount of time will only increase your level of stress and as a consequence have a negative effect on your well-being. Time is a finite resource while energy is renewable and has the potential for expansion. The key is to do things differently. In this workshop you will learn how to build and sustain your capacity – your energy. In fact, greater capacity makes it possible to get more done in less time at a higher level of engagement and with more sustainability. Organized by [HEC Life Project](#).
